

State / Provincial Competition

Your Envirothon Competition

States and provinces often model their programs after the Canon Envirothon to better-prepare their students for the final competition. Given the flexibility of the State/Provincial Envirothon, competition formats may vary. States and provinces are encouraged to tailor their programs to meet their specific needs.

The best way to learn about the Envirothon is to attend a competition in your area. However, this website will provide information and resources to help you better-understand how a state/provincial competition is organized and conducted. Please use the links on the left to begin exploring our Envirothon resources.
